TECHNICAL SKILLS

- HTML5
- CSS3
- JSON Server
- JavaScript
- React
- Python/Django
- GitHub

PROJECTS

Front End Capstone: csART

csART is an application that was built for my personal display of spray painting artwork. The application features several login features for its users and a gallery view of the artwork. As the manager of the app, I have the ability to login as the 'admin' of the application. Giving me full CRUD functionality over the Gallery. A user can create an account and login to the app with their credentials. A logged in user has the ability to view the art gallery, and the ability to select their favorite artwork from the Gallery and add that to their 'Favorites' section within the app. Last is a Guest login. This user has the limited ability of only viewing the Gallery, and cannot add any paintings to their favorites section.

- Tech used: React.js, CSS for styling, JSON server to execute API fetch calls

EDUCATION

Nashville Software School.

Full-Time Web Developer Boot-camp, Python/Django (Jan. - June 2020)

Fleming Training Center

Grade 3 Water Treatment Operator Certification (2015 - 2016)

PERSONAL PROFILE

Creativity and a passion for tech is what drove me to begin a career in software development. Whether its building PC's, writing code, listening to music, browsing the web, or countless hours gaming; I'm always enjoying tech in some capacity. With so many hobbies and interest ingrained in technology, I decided a career in that field was best suited for me. After researching and talking to several friends in the tech field, I found Nashville Software School and dove right in to their intensive 6-month full-stack boot-camp.

PROFESSIONAL EXPERIENCE

Nashville Software School

JR. FULL-STACK SOFTWARE DEVELOPER/ STUDENT
JANUARY 2020 - PRESENT

- Six-month, intensive software development bootcamp
- Hands on experience working with teams of developers to build applications using Git and GitHub for version control
- Built individual and team-based projects with full CRUD functionality
- Tech Stack includes HTML5, CSS3, JavaScript, JSON Server, Reactjs, Python/Django, SQL
- Adapted to the course being moved to a virtual environment,utilizing ZOOM for classroom lessons and group projects.

Southwest Airlines (BNA)

RAMP AGENT
SEPTEMBER 2018 - OCTOBER 2019

- Job positions include Gate Lead, Lead Assist, Baggage/Freight Runners,
- Main position, Gate Lead which is the lead agent in a team of 4 or 5.
- Gate Lead is responsible for the aircraft, baggage, freight, and agents at their assigned gate
- Safely marshal aircraft into the gate and connect ground services.
- Coordinate Loading/Offloading of baggage and freight in a timely manner to ensure on-time departures and baggage pickup.
- Manually or Electronically submit a Cargo Bin Loading Slip to an operations agent. This document tracks all commodities loaded onto the aircraft and is critical to the weight and balance of the aircraft.

Education Network of America

CUSTOMER SUPPORT ENGINEER
MARCH 2016 - DECEMBER 2017

- Proactively monitor, research, and document WAN issues utilizing network monitoring applications (Icinga 2). Report customer facing service impacting issues to the customer and actively manage vendors to restore service quickly. Provide direction and guidance to vendors to act swiftly and initiate root cause analysis (RCA) to avoid future service impacts.
- Ensure high levels of customer satisfaction by directly resolving or managing all activities to restore service. Communicate with customers throughout the incident duration while managing the resolution activities. Report all customer communication and troubleshooting in a ticketing system (CRM ticketing system) and complete RCA's as requested.
- Primary point of contact for customers to call for all services ENA offers. Manage and executed changes in firewalls, DNS, and network device configurations to restore service. Provides support for Voice over IP (VOIP) including moves/ adds/ changes that may affect customer invoices. Affects support and changes to various other technologies: E-mail, Content Filtering, DNS.

West Wilson Utility District
